

CAREER PROFILE

Experienced IT specialist with a passion for programming, which began at the age of 15. Started my career at 18 and have 3 years of experience as a DevOps engineer, specializing in AWS cloud solutions. Worked at companies such as Genesys, Bazaarvoice, and ABN AMRO Clearing. Currently, I am actively studying cybersecurity and aim to advance in this field, leveraging my accumulated knowledge and experience to ensure the reliability and security of IT infrastructure.

EXPERIENCES

DevOps Engineer

ABN AMRO Bank N.V

2023 - 2024

- Supported and supplemented existing CI/CD infrastructure.
- Automated routine tasks using Ansible Playbooks and Python scripts.
- Got first experience with a private cloud.
- Maintained detailed documentation of all written code.
- Interacted with a wide variety of diverse teams to achieve a common goal.
- Helped HR department in creating a list of criteria for evaluating DevOps engineers.

DevOps Engineer

Bazaarvoice

2022 - 2023

- Created AWS Lambda function on python for automatic orchestration and monitoring of AWS EMR clusters instead of old EC2-based approach.
- Migrated services from AWS ECS to Kubernetes.
- Established CI/CD process for a bunch of project-internal services.
- Cloud cost optimization via implementing cloud best practices.
- Established knowledge transfer sessions.
- Supported and wrote documentation for project-internal services.

Junior DevOps Engineer

Genesys

2021 - 2022

- Migrated jobs from Jenkins to GitHub Actions.
- Monitored and troubleshooted internal microservices via Prometheus, Kibana and PagerDuty.
- Wrote scripts for routine job automatization.
- Troubleshooted company-internal applications.
- Developed robust and resilient cloud infrastructure for project-internal services via Terraform and CloudFormation
- Configured cloud infrastructure in Azure and AWS.

PROJECTS

My side / test projects, assignments, etc.

ci-cd-task-node-server - Repo I have created for interviewing new people on DevOps position.

node-web-college-assignment - Demo node.js web application which uses mongodb as a DB

qr-extension - Browser application I have done together with my teacher in scope of node.js practice.

docker-nginx-load-balancer-devops-test-assignment - Test assignment I have done for my first job interview.

terraform-aws-vpn-collection - Terraform module for AWS with pptp_vpn implementation.

SKILLS & PROFICIENCY

AWS, Docker, K8S, Helm

Jenkins, Github Actions

Linux, Unix, Windows

Terraform, Ansible

Python, Bash, Ruby

Javascript & NodeJs

SQL (MySQL) & NoSql (MongoDB)

HTML5 & CSS & Svelte basics
