D1.1 Welding Certificate, American Welding Society, 2024

Driving license, PennDOT, 2024

Other: Google Cloud Certified Associate, AWS SysOps Administrator, AWS Certified Cloud Practitioner

PROFESSIONAL EXPERIENCE

Solar Installer

12/2025 - 06/2026

Trinity Solar

Pittsburgh, PA

- Executed the structural and electrical layout of residential solar arrays, adhering strictly to engineered blueprints and local building codes.
- Worked continuously and effectively on the roofs managing risk during challenging weather conditions and high-altitude tasks.
- Installed and wired DC electrical components, including solar modules and junction boxes, ensuring proper containment pathways and grounding.
- Utilized specialized hand and power tools to mount racking systems, secure modules, wiring junction boxes and run containment pathways for electrical wiring.
- Worked in a team, maintained clear, proactive communication with site foremen and homeowners to deliver project milestones on schedule.

Field Technician, Fabricator

03/2025 – 12/2025

Neilly Canvas Goods Company

Pittsburgh, PA

- Installed and dismantled mechanical and structural assemblies, including custom metal-framed awnings, ensuring precision and durability.
- Read and interpret blueprints, schematics, and technical drawings to perform accurate installations.
- Worked at heights and in outdoor conditions on residential and commercial sites.
- Operated power and hand tools to fabricate and assemble awning structures.
- Performed MIG welding on aluminum frames for custom assemblies.
- Maintained a clean and organized worksite while adhering to safety standards.
- Troubleshoot installation issues on-site, adapting solutions to meet project specifications.
- Performed basic troubleshooting and repair of electrical components and small appliances.

DevOps Engineer & Infrastructure Specialist

01/2021 – 02/2024

Multiple IT companies: Genesys, Bazaarvoice, ABN AMRO, etc

Ukraine, Spain, Netherlands

- Focused on technical troubleshooting, systems logic, and infrastructure design for international enterprises.
- Built local IT infrastructure including server hardware, network config, routers, switches, cable management.

LANGUAGE SKILLS

English, Russian, Ukrainian, Spanish

SKILLS

Electrical wiring & controls, Power tools & hand tools, HVACR, Refrigeration, Plumbing, Welding and fabrication, Brazing and soldering, Oxy-fuel cutting, Blueprint and schematic reading, Shop math, Equipment installation and repair, Troubleshooting mechanical and electrical issues, Ladder and rooftop safety, Ability to lift up to 50 lbs and more, Communication and customer service, Technical documentation reading.
